

# COLOURED LAMINATED JT-SAFETY GLASS

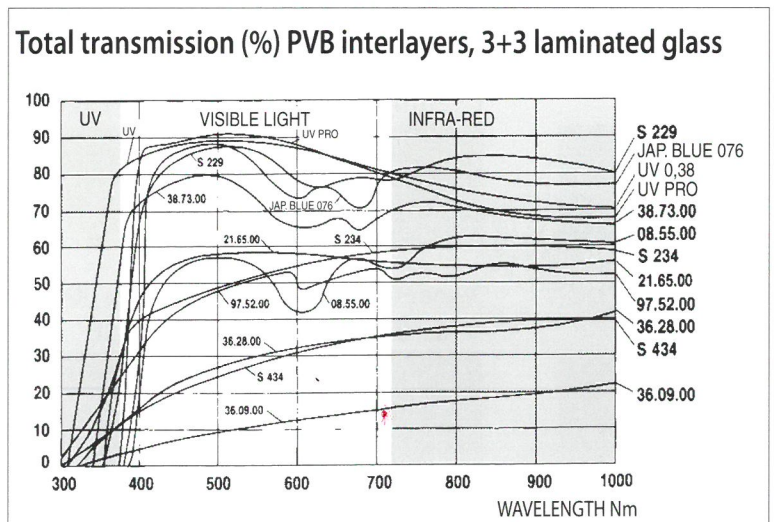

Laminated glass is manufactured by bonding two or more sheets of glass with strong and flexible PVB interlayer. There are about 30 interlayer colours. Generally used interlayer thickness is 0,38 mm. Interlayers for windscreens used in vehicles are 0,76 mm thick.

It is possible to combine coloured interlayers and glasses if colour shades different from the regular colours are needed.

JT no	Factory interlayer no.		Light transmission factor %
0	clear		89
2	S4055 (S234)	light smoke	55
4	S6028 (S434)	medium dark smoke, brown	28
4	362800	medium dark smoke, brown	28
5	360900	dark smoke, brown	09
6	216500	opal	68
7	803000	black non-transparent	0
8	220700	white	8
10	OR-1	wine red non-transparent	0
12	377300	green	73
16	082800	grey hound	28
18	654400	grey	44
20	377800	vehicle green 0,76	80
21	547800	Japanese blue 0,76	78
22	367700	vehicle bronze 0,76	77
23	218000	matte interlayer	80

Vanceva interlayers		Light transmission factor %
0001	Coral Rose	78
0002	Aquamarine	78
0003	Smoke Grey	78
0004	Sahara Sun	78
0005	Ruby Red	50
0006	Sapphire	50
0007	Evening Shadow	50
0008	Golden Light	86
0009	Arctic Snow	65
000A	Cool White	80
000C	Deep Red	15
000D	True Blue	14
000E	Tangerine	41

# COLOURED LAMINATED JT-SAFETY GLASS

JT2 (S234) 	JT4 (S434) 	JT4 (362800) 	JT5 (360900) 	JT6 (216500) 
JT7 (803000) 	JT8 (220700) 	JT10 (OR-1) 	JT12 (377300) 	JT16 (082800) 
JT18 (654400) 	JT20 (377800) 	JT21 (547800) 	JT22 (367700) 	JT23 (218000) 

In connection with coloured JT safety glass we hope you use PVB interlayers' JT numbers: (JT no 1–23) Vanceva interlayers' numbering is 0001 – 000E.

## Vanceva interlayers, thickness 0,38

- pricing according to the offer (about 2,5-times more expensive than PVB interlayers)

Vanceva 0001 Coral Rose 	Vanceva 0002 Aquamarine 	Vanceva 0003 Smoke Grey 	Vanceva 0004 Sahara Sun 	Vanceva 0005 Ruby Red 
Vanceva 0006 Sapphire 	Vanceva 0007 Evening Shadow 	Vanceva 0008 Golden Light 	Vanceva 0009 Arctic Snow 	Vanceva 000A Cool White 
Vanceva 000C Deep Red 	Vanceva 000D True Blue 	Vanceva 000E Tangerine 		

Interlayer colours are shown as near to the right colour shade as print technically is possible.
